

R. Murphy Co., Inc.

Manufacturers of Hand Knives

FOR: Industrial • Craftsmen • Professional •
Homeowners • Handicraft • Shellfish • Sportsmen

Shoe and Leather Knives

Medium Gauge Blades

Murphy "Stay Sharp" knives were developed for those artisans who cut, trim, or split leather, rubber and plastics. All blades are made from 17 gauge chrome vanadium

steel that has been hardened, ground, polished and honed to perfection. Handles are made from selected hardwoods . . . stained brown or green.

Knife Guards

All Murphy shoe, leather and rubber knives can be fitted with either the straight or bent safety guard which not only

protects but also permits increased cutting pressure.

Straight Guard

CODE	Description
/SG	Straight style Safety Shield Guard

Bent Guard

CODE	Description
/BG	Bent style Safety Shield Guard

To order any of the Shoe, Leather, Knives with Guards order correct Knife CODE and add to it either "SG" or "/BG".

Mill, Rubber Blades and Knives

Heavy Gauge Blades

Murphy "Stay Sharp" knives and blades are produced from the finest high carbon steel. Each is uniformly hardened and carefully ground to precise industry standards. The variety of blade sizes and shapes means that we have just the

right blade for almost any hand or machine cutting job.

Mill blade handles are designed to securely lock the blade in place. Rubber knives have natural colored round handles.

Adjustable Handles and Blades

Adjustable handles are made from solid brass castings, and rosewood inserts. Carefully assembled by hand, each is individually sanded, polished and buffed to a high luster. They are designed for perfect cutting control.

Chrome vanadium steel adjustable blades are ground,

polished and honed to a fine edge and are held in place by a slotted set screw.

Blade and handle combine to produce a tool that is the ultimate in its class for its sturdy durability and attractive appearance.

Crab Meat

CODE:SSSCM – Blade length 2 1/4", overall length 5 3/4". Solid stainless steel, forged and hardened. Heavy enough to crack shells and claws. Sharp enough to pick the meat. Weight, 3 oz. each.

Flooring and Roofing Knives

Linoleum blades have been a Murphy specialty for generations. Uniformly hardened steel and hardwood handles are used for all Murphy "Stay Sharp" knives. Each blade is fully taper ground and expertly honed with great

care to insure a precision cutting edge.

We offer a variety of useful shapes and thicknesses to cut the toughest floor or roofing materials. This line is designed for the professional craftsman.
